

DINNY HALL

How to measure your ring size

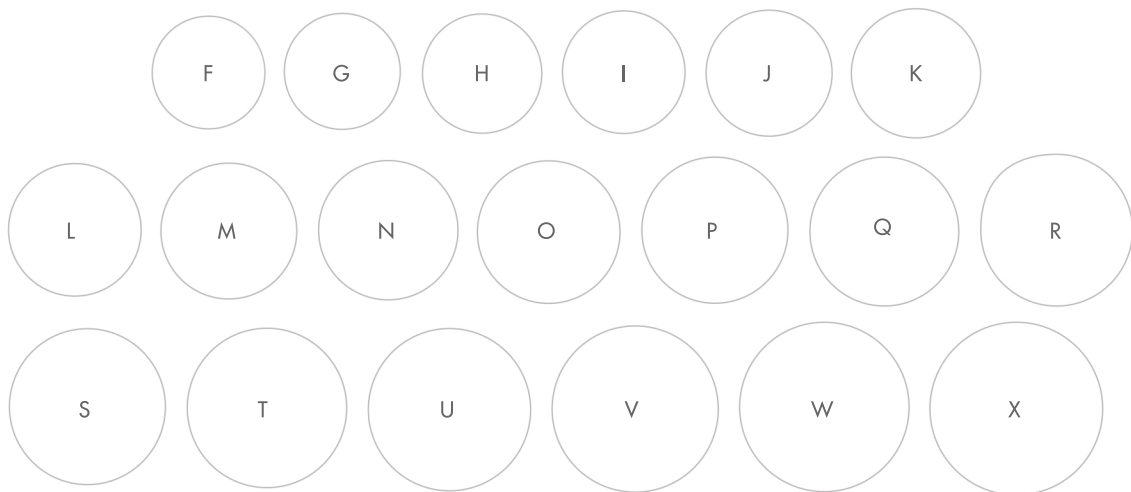

Print

Print this guide onto standard A4 printer paper (210 x 297mm) and ensure the line below measures 5cm.

Measure an Existing Ring

Select a rings that fits the finger to be sized and place it over the circles below. Check your ring against each size until the inside circumference lines up perfectly.

Please note: a wide band will feel tighter on the finger than a narrow band, a wider band therefore may require a slightly larger ring size.

This chart is to be used as a guide only, sizes may vary based on band width, shape of finger, or even whether your fingers are hot or cold.

Need more help?

For international measurements, please refer to our online ring size information page located at: <https://www.dinnyhall.com/ring-size-guide>

We are more than happy to size you in any of our stores, alternatively contact us at customercare@dinnyhall.co.uk
